

# How to download sound files on iPhone and iPad

The basic principle to download files from your iPhone or iPad is fairly simple although not obvious.

1. Go to the song in the members section you want to download.
2. Click on the download button of the part you want.
3. This will start playing the sound file.
4. Click the share icon as below.

5. Select “Save to File”
6. Select Save

This will have saved the sound file to the downloads folder

To access the downloaded sound file. Click on the “Files” icon on the Iphone. Select ‘On My Phone” then the downloads folder.
